

DRAFT
Defense Supply Center Richmond Restoration Advisory Board
Meeting Minutes
July 11, 2005

The meeting for the Defense Supply Center Richmond (DSCR) Restoration Advisory Board (RAB) was held at Bensley Community Building on July 11, 2005. The meeting began at 7:30 p.m. A quorum was not present.

Attendees

- Voting RAB Members—Sarah Clarke, Lonnie McCoy, Janet Moe, and Harold Preibisch
- Ex Officio Nonvoting Members—Charles Carrell, DSCR; Jerry Grimes, Virginia DEQ; Jack Potosnak, EPA Region III
- Advisors—Steve Edlavitch and Jeff Zoeckler, DSCR Environmental Office; Kim Turner, DSCR Public Affairs Office; and Gene Gardner, WPI Facilitator

Issues Log

- DSCR is closing out the web site issue log item (Issues Log Item 4.1)
- A United States Geological Survey (USGS) topographic map showing creek sampling location BM-3, which was brought to the meeting, will be brought back to the August RAB meeting (Issues Log Item 1.2)

Public Forum

- Residents reported there was a delay in the start of the installation of a sewer line in the Rayon Park area because the Virginia Department of Transportation (VDOT) would not issue a permit to excavate a roadway without documentation that there was no contamination in that area from DSCR. After contacting various state offices to seek a quick resolution of the problem, the residents had turned to the Public Information office at DSCR for assistance. DSCR had responded that Chesterfield County had all of the necessary documentation and that the county was the proper agency to quickly and accurately provide the needed information to VDOT.
- The residents expressed their frustration that DSCR was not more responsive in immediately providing any information that could have speeded up the process or at least directed the county or the residents to specific documents which should be publicly accessible. The issue was resolved in a timely manner by the county and state agencies so the sewer project was scheduled to resume the next day, but residents questioned DSCR's promised level of commitment to the needs of community groups.

Technical Briefings

- Mr. Edlavitch presented a status update on the DSCR cleanup program.
- Dr. Jim Kennedy, Mactec, presented "Review of Most Recent Groundwater Monitoring at DSCR".

Public Comment

- There were no comments from the public.

Administrative Items

- Because a quorum was not present, Administrative Items on the agenda were tabled until the next meeting.

Meeting Adjourned—The meeting was adjourned at 9:35 p.m.
